

NIAID needs you because the world needs us!

Work With the Best! Start With Us and Become a Clinical Research Expert

The National Institute of Allergy and Infectious Diseases' (NIAID) Division of Allergy, Immunology, and Transplantation (DAIT), a world leader in immunology research, seeks clinicians for full-time positions as medical officers. Those hired will oversee protocols and patient safety monitoring for cutting-edge research in areas such as asthma and allergic diseases, autoimmune diseases, rheumatology, and transplantation that is transforming medical practice.

Medical officers provide leadership and scientific/medical expertise to plan and implement NIAID-supported studies. The position provides a chance to learn clinical research practices and work with some of the best scientists in the country. In addition to significant training opportunities, the position offers flexibility and outstanding working conditions that allow for a stimulating career with a high quality of life. Competitive salaries and excellent benefits are available, including retirement; health, life, and long-term care insurance; annual and sick leave; and thrift savings plan (401K equivalent).

For a full listing of duties and qualifications for this position, please visit www.usajobs.com and reference vacancy announcement # HHS/NIH-2009-3400.
